

MANAN DARJI

AI/ML Engineer • Full Stack Developer

+91 8976109195 • darjimanan6506@gmail.com • linkedin.com/in/manan-darji06 • github.com/MananDarji06

OBJECTIVE

Second-year B.Tech AI/ML student with hands-on experience in computer vision, financial simulation, and full-stack web development. Eager to apply technical expertise in a challenging internship or early-career engineering role, particularly in data-driven or fintech environments where analytical problem-solving and software development intersect.

EDUCATION

Dwarkadas J. Sanghvi College of Engineering

B.Tech in AI/ML | Honors in Immersive Technology (AR/VR/XR) | Mumbai, India

2024 – 2028

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C

AI & Data: PyTorch, TensorFlow, Scikit-learn, XGBoost, Pandas, NumPy, OpenCV

Web & Backend: React.js, Next.js, Node.js, FastAPI, Flask, REST APIs, HTML, CSS

Databases & Tools: MySQL, MongoDB, Git, GitHub, Google Colab, VS Code, Tkinter

EXPERIENCE

Academic Tutor & Mentor — Arihant Academy, Mumbai

June 2024 – Present

- Mentored 15+ students in Science and Mathematics using structured problem-solving frameworks tailored to individual learning gaps.
- Improved student comprehension and exam readiness through one-on-one and group instruction, while strengthening leadership and communication skills.

PROJECTS

AI Face Detection Application

Python · OpenCV · Tkinter

- Built a real-time face detection system using OpenCV Haar cascades with bounding-box rendering on live webcam input.
- Developed a Tkinter GUI enabling intuitive interaction and control of the detection pipeline.

Mutual Fund & SIP Investment Simulator

JavaScript · Financial Modeling

- Created a financial simulation tool modeling SIP wealth growth using compound return projections across multiple time horizons.
- Implemented interactive return-rate scenarios to help users compare long-term investment outcomes.

Stock Trading Simulator

JavaScript · Simulation Logic

- Built a virtual trading simulator supporting buy/sell order mechanics with real-time portfolio P&L tracking.
- Designed a simulation engine exposing users to market volatility and risk-based decision making.

SOFT SKILLS

Leadership • Mentorship • Analytical Problem Solving • Clear Communication • Self-directed Learning • Adaptability
